PH Zurich Online Summer School

Innovative Approaches to Inclusive Education Global vision and local solutions

Course Outline

This summer school provides unique opportunities to explore both, international and local perspectives on inclusive education. By engaging with others through interactive digital spaces, participants will not only have access to current discourses and research, but also to practical expertise and experiences of different stakeholders in local and international contexts. This unique learning opportunity is enriched by partners in international organisations such as UNICEF as well as partners «working on the ground» (e.g. pilot schools, local NGOs).
